

The collaboration of breast cancer service providers, funders, survivors and others listed below constitutes the Advisory Council. The Advisory Council, while retaining policy and visioning responsibilities, has delegated authority to the Operations Committee to serve as its governing body. The Entrepreneurs Foundation maintains fiduciary responsibility, releasing funds as authorized by the collaboration. Our collaboration is further divided into work groups, which manage various responsibilities. These groups are Gaps, Communications, Meals/Food Pilot, Patient Navigation, Fundraising & Events, and Social Networking.
